

Dear Parent,

Thank you for calling our office to inquire about our dental services for your child. We are very excited about seeing you and your child for your first appointment soon. We commend you on your interest in your child's dental health! The younger that a child is for their first dental appointment the more likely he or she is to grow to be a great dental patient and to have a favorable outlook toward dental care throughout life.

At this first appointment we will introduce your child to the world of a pediatric dental office. If your child is three years old or older, we will take his or her x-rays and clean his or her teeth. We will then talk to you about your child's needs, oral hygiene and answer all your questions. You will meet Dr. Lindhorst and her wonderful staff, a group of dedicated, amazing women who are moms themselves and who always treat your child as if it was their own.

We believe that parents are an integral part of their child's dental appointment and your help and cooperation are appreciated. It is very important for you to build a positive picture of a dental visit before you walk through our door. Please do not share any of your own unhappy experiences with your child. Talk to them about the exciting aspects of meeting new people, taking care of their teeth, and having fun with our toys, prizes and other kids.

Please complete the enclosed forms and bring it for review with Dr. Lindhorst when you come see us. Please browse our website ([www.smiles-for-kids.com](http://www.smiles-for-kids.com)) to get more information about the office, staff, procedures, policies, and such.

Our whole staff is looking forward to seeing you and your child.

Sincerely,

Kasia Lindhorst, DDS MSD
